SAILS UP 4 CANCER

Sails Up 4 Cancer Inc (SU4C) is a non-profit organization dedicated to funding education, prevention, care, and cure for all types of cancer through the art and enjoyment of sailing. SU4C runs multiple events including the Annual Regatta, Comedy Night, Cornhole Tournament and Trivia Nights. Sails Up 4 Cancer has

partnered with many local and national organizations to help raise awareness and facilitate our fundraising efforts. SU4C has been able to assist many local cancer care centers and both individuals and families struggling financially while battling cancer.

Since its inception, Sails Up 4 Cancer has been dedicated to doing as much as possible to support cancer care, education, prevention and research...but how can we do more to help those in our community battling cancer? Along with unbearable pain and suffering also comes loss of income all while medical costs are skyrocketing. Sails Up realized this dilemma and we have - and continue to -make a difference with the Spinnaker Fund. This fund's sole purpose is to help financially those where cancer has impacted their ability to manage even daily expenses such as their groceries, utility bills, insurance payments, medicine and any other necessary expenses. The stress that families endure during cancer treatment is indescribable, thus Sails Up has a process in place where people can apply for financial assistance thus alleviating some financial hardship. Many cancer patients now have a greater chance at survival than ever before - albeit still not enough - it will never be enough until there is a cure... until then please help us help cancer patients and families!

Help support the SU4C Spinnaker Fund with direct financial assistance for those battling cancer.
